

DIVE into a World of Excitement!

Open Water Diver Certification

Open Water Diver certification is a *full entry* level certification you earn by successfully completing the entire Open Water Diver course. The PADI Open Water Diver certification qualifies you to:

- Dive independently while applying the knowledge and skills you learn in this course, within the limits of your training and experience.
- Procure air fills, scuba equipment and other services.
- Plan, conduct and log open water no decompression dives when equipped properly and accompanied by a buddy in conditions with which you have training and/or experience.
- Continue your diver training with a specialty dive in the PADI Adventure Diver programs, and/or in PADI Specialty courses.

The PADI Open Water Diver course is a three week program with a total of 4 open water training dives for certification. For those with time constraints our PADI eLearning Program may be what you are looking for. Once you have logged onto our web site (midwestscuba.com) you will find an eLearning button that will redirect you to the sign up page. Once you have registered you may then complete all of the academic phases of training anywhere you have access to a computer. You then make arrangements with us to complete your pool and open water phases of training for certification with us.

What will I learn in class?

Topics such as Diving Equipment, Breathing Underwater, Underwater Communications, Planning Dives, Boat Diving Procedures, and Diving Environment are included. During pool sessions you'll practice using SCUBA equipment, adjusting your buoyancy, and using your mask, fins, and snorkel.

When are the Open Water Dives?

Once you have completed your academic and pool sessions you must then complete 4 open water training dives for certification. In most instances, the dives are planned for the weekend following your third week of class (weather permitting). Ask us how we can arrange for you to complete your dives on one of our dive vacation destinations.

What must I provide for the course?

You will need to provide your own mask, fins, and snorkel. These items are available here at Midwest Scuba Center, our staff will be glad to assist you in your needs. You will also need to provide your own SCUBA package for the training dives, rental is available for a weekend rate of approx. \$100.

What do SCUBA lessons cost?
